Kleven. Hiking trail towards Kleven's top with a mile-long view of the surrounding landscape.

The hiking trail starts at Klevsand, which is on the shore of Lake Idsjön. The trail starts on the north side of the road and then goes up along the edge of Kleven. At the start there is a Stone Age burial ground and at the beginning of the trail you can pass cultural remains such as elk pits and cowshed ruins. The hike then continues through beautiful woodland and ends towards the top with lichen-covered outcrops.

The goal of the hike is the viewpoint on Kleven's top with a view of the surrounding landscape. Great care must be taken on the edge towards the cliff! The return journey goes down through the pine forest in relatively steep terrain. Relatively strenuous hiking trail of 2.5 km.

Directions from Bräcke

Follow road 323 to Nyhem, turn off towards Gimdalen and follow the road 4 km to the sign for ancient remains with adjacent wind protection on the shore of Lake Idsjön. GPS WGS84DD 62.86107, 15.62982
