**Kullaleden.** A trail up Kulla that is very special with its rugged mountain and hill landscape. The viewpoint at the top offers a wonderful view of Gimdalen and the surrounding area.

The trail starts at the turnpike at the end of the road above Herrgårdsboan. The trail then follows a path through the forest via a small bog and further up towards a beautiful forest star where it is advantageous to stop and take a break.

After the pond, the trail continues uphill towards Kulla and at the goal of the hike – the viewpoint at the top – there is a rest house with a fireplace. From there you have a view of Gimdalen and the surrounding area.

On the walk back, you pass a cairn from the 14th century that belongs to Gimdalen's history.

The trail goes through a number of nature types where above all the last section up on Kulla is very special with its barren mountain and hill landscape.

The total length of the trail is 4 km.

### Directions from Bräcke

Follow road 323 towards Nyhem, turn right onto Idsjövägen before Gimåbron and then follow it for 4 km to the signposted Kullavägen exit. GPS WGS84DD 62.83608, 15.60466
